

Rating of Training Delivery

No matter how well designed a training course is and how educated and experienced a trainer is, it is his or her actual ability to get knowledge across to students which builds skills. DNV is now offering rating of training delivery to training providers globally.

Features

- Certification to DNV's standard for Maritime Academies (MET Certification) a requirement
- Sampling based on number of training courses and trainers
- Document review to allow assessment of achievement of learning objectives
- Observation of course delivery in classroom by pedagogical experts
- Annual rating process in conjunction with MET audits
- Rating score may be printed on MET certificate or used to guide internal quality work

Benefits

- Teaching ability of staff and total quality level of institution documented
- Reputation visualised through measurable score
- Benchmark against national and international competitors
- Candidates can make better informed choices
- Improvement areas clearly identified
- Strengthened relation with corporate clients and authorities
