

TO THE UNITED NATIONS

Assessment

It is hereby confirmed that the likelihood of reaching the 17 Sustainable Development Goals by 2030 has been assessed for five world regions with the results as summarized below. The forecast methodology and the detailed results are reported in *The Future of Spaceship Earth* – www.dnvgl.com/spaceship

Likelihood of meeting the 17 Sustainable Development Goals in five world regions:

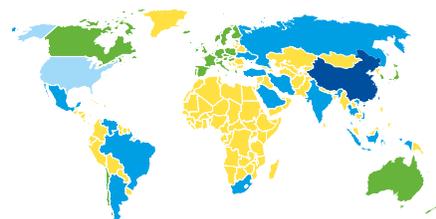

- Goal likely to be reached (i.e target fulfilment of more than 95%)
- Goal not likely to be reached, but more than 50% of gap between today's status and the goal is likely closed
- Goal not likely to be reached, and less than 50% of gap between today's status and the goal is likely closed
